Lab XL Metal

with armrests

Harri Korhonen

Lab XL Metal is a fresh evolution of our uniquely comfortable Lab XL Low easy chair, retaining its generously padded seat and distinctive proportions while introducing a refined, clean-lined metal frame.

In this version, the gently curved metal armrests follow the chair's distinctive silhouette, becoming a natural extension of its frame. Beyond their visual character, they provide practical support when sitting down or standing up from the low seat. The metal frame gives the chair a lighter, more contemporary character while adding durability for high-use environments. Combining relaxed comfort, architectural expression, and thoughtful everyday functionality, the chair is well suited to modern lobbies, lounges, offices, and hotels.

The Lab family includes a wide range of chairs, tables, and sofas designed to bring comfort and coziness into everyday working environments.

Height:	**780mm**
Seat height:	**430mm**
