

# BONDO

Design: Harri Korhonen

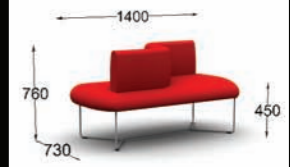

Free form, solid, smooth, rounded, peaceful... From earlier lighter Bondo versions Bondo D is a totally upholstered basic module for Bondo - the universally applicable lounge element for public and semipublic waiting areas. The range of compositions may vary from a bench or divan to a 2-seater sofa, thanks to the different shapes of the back elements. Bondo can be combined into different setups or lines or used as single seats.
