

# Demi stacking table

Jouko Järvisalo

**inno**

Demi is a versatile stacking table. In addition to a side table, it can be used to form long meeting tables, auditoriums, and large restaurant settings. The handy trolley makes it perfect for multipurpose environments and temporary use.

**Height:** 720mm

**Width:** 1200-1600mm

**Depth:** 450mm

## INTERIOR ARCHITECT

### Jouko Järvisalo

Jouko Järvisalo was born in 1950. He has graduated as an interior architect from the University of Art and Design Helsinki in 1977. Since 1979, he has been designing furniture for several Finnish manufacturers. He founded his own design studio in 1986, and is also a professor of furniture design in Aalto University. He has received several awards both in Finland and abroad. His work is presented in museums such as Designmuseum, Helsinki, Athenaeum, Chicago, Stedelijk, Amsterdam and The Icelandic Museum of Design and Applied Art, Reykjavik, among the others.
