Intro B3

Intro is a stackable wooden chair for use in a variety of public and private spaces. At first sight Intro looks simple but it's designed with a lot of attention to detail. The unique design combined with ergonomic proportions make it suitable for use in different purposes alone, in a group or around a table. Available with an upholstered seat and/or back. Optional row connection. The armrest version of Intro has a distinct spirit that is suitable also for conference milieus.
