Intro Chair is a versatile and lightweight wooden armchair, equally suited for restaurants, hotels, or domestic dining settings. It is compact and stackable, with excellent ergonomics. With a simple and direct form, Intro Chair's design traces back to the heritage of Nordic simplicity. The detailing is honest and clean-cut, yet elegantly executed.

## Available Variants:

- **A:** Stackable, armless. Upholstered version available.
- **B:** Stackable, with armrests. Upholstered version available.
- **C:** Non-stackable, armless. Upholstered version available.
- **Special:** Tailored solutions available for custom project needs.

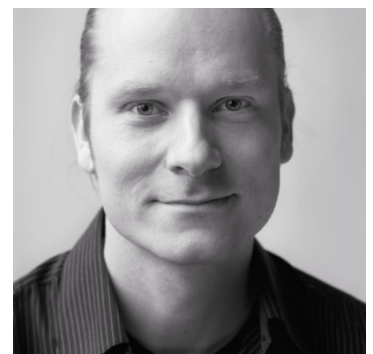

## Additional Components:

Row connector. Row connector with integrated electric units. Writing tablet (330 × 200 mm). Trolley (holds up to 12 chairs). Up to 7 chairs can be stacked directly on the floor.

## DESIGNER

### Ari Kanerva

Ari Kanerva is an internationally established designer based in Turku, Finland. His main focus is on furniture and product design. His studio also assists companies with product development. Each of his design is characterized by a careful research of items intended use and ergonomics. His style is minimalistic and very refined but always unique. Visual balance and thoughtful little details are key features in his designs.

# Intro A

Stackable, armless. Upholstered version available.

Width: 480 | Depth: 460 | Height: 770 | Seat height: 450

Stackable, with armrests. Upholstered version available.

Width: 550 | Depth: 460 | Height: 770 | Seat height: 450

# Intro C

Non-stackable, armless. Upholstered version available.

Width: 400 | Depth: 460 | Height: 770 | Seat height: 450

## Intro - Project Model

This project-tailored version of the Intro Chair is designed for elderly care environments, enhancing both comfort and usability. Built on the same lightweight wooden frame, it incorporates carefully considered features to support safety and ease of use: cushioning for long-term sitting comfort, removable and washable upholstery, rear wheels for effortless repositioning and short-distance mobility, and sturdy rear handles to assist caregivers with movement and positioning.
