

## PRESS RELEASE

September 2, 2021

### TIMELESS FEATURES WITH A JOYFUL TWIST

Inno's novelties in September 2021 include Taivu Meeting and Taivu Compact Lounge Chairs, designed by Mikko Laakkonen. These chairs are not only designed to be durable, but they stand up against time and won't get outdated any time soon. "At a closer look one can find fine drawn hints of classical characteristics even though spiced with a very positive and modern twist", tells Niklas Korhonen, CEO at Inno.

### TAIVU MEETING CHAIR, DESIGN MIKKO LAAKKONEN

We all know how hard long meetings can be on your back, therefore a small tree-dimensional movement is added to activate the muscles supporting your spine. The seat-shell naturally follows the body movement providing a dynamic and ergonomic sitting experience. In addition to the swivel, dynamic tilt and height adjustment, there is a new structure with a perfect tension of foam that keeps you relaxed for the whole meeting. Taivu Meeting chair is easily tailored to fit a wide range of interiors, such as board rooms, executive conference spaces and home offices as well.

YXL - H 910 SG 470-590 W 670 D 680 mm

ZXL - H 910 SH 470-590 W 670 D 680 mm

## TAIVU COMPACT LOUNGE, DESIGN MIKKO LAAKKONEN

Taivu Compact Lounge Chair is compact in size yet distinctive in expression. Thanks to its exposed frame and clarity of structure Taivu Compact provides lightweight and original aesthetics. Inno's selected RAL colours red, green, blue and yellow give you a number of options for monochrome or brand specific outcomes. It is easily tailored to fit a wide range of interiors, such as hotel rooms, lobbies, lounges and waiting areas.

## TAIVU FAMILY

Taivu product family includes Taivu easy chair width 870 mm, Taivu Compact lounge chair width 680 mm and Taivu Meeting swivel chair with cross-legs YXL or ZXL. All members of the Taivu product family complement each other and may be used in the same premises but for different purposes.

## ABOUT INNO

Inno is a family owned company with strong roots in innovative product design and responsible production. The company's aim is to produce design furniture as "tools for architects". Since 1974 Inno's customized furniture solutions and interior accessories have been chosen for brand concepts, business premises, cultural and public buildings, airports and hotel chains all over the world.
